

Clarendon House
Clarendon Road
Cambridge, UK
CB2 8FH

C++ Software Engineer

Type: Full Time

You will be joining a fast growing, dynamic global company providing latency-critical real-time solutions to the financial markets. Our core business is in the US and we are aggressively expanding into Asia and European markets. We have development facilities in Cambridge UK and Chicago USA.

We need high quality C++ programmers to assist with core development of our proprietary server technology and very-high-speed message bus. You will be joining a team of expert C++ programmers, utilizing the latest compiler toolsets and o/s APIs in a highly demanding real-time environment.

Skills:

- Excellent C++ skills, including STL / boost and fluency in template-based design. Familiarity with work of Meyers, Josuttis, Sutter, Alexandrescu, etc.
- Good networking (IPv4 and IPv6) and system programming skills on Linux and/or Windows
- Knowledge of financial markets an advantage, as is experience of exchange interfaces (CTS, OPRA, etc) and related technology (CORBA, FIX, RMDS, TIBCO etc)

Requirements:

- 2:1 or above Hons. degree or equivalent in mathematics, computer science or comparable

ACTIV Financial Systems, Inc. is a leading provider of market data content and technologies to market makers, hedge funds, brokers and trading systems. The company provides managed low-latency and high-volume market data services to over 300 customers worldwide. As vendor of record, ACTIV also delivers consolidated, hosted and on-site ticker plant services for exchanges around the globe. ACTIV is privately-owned with offices in Chicago, New York City, Tokyo, Singapore and London. www.activfinancial.com

Please no phone calls or recruiters.
